EDUCATION

Ph.D. in Economics, Simon Fraser University 2020 – 2027 (expected)

- Committee: Fernando Aragón (Supervisor), Pierre Mouganie, Simon Woodcock
- Additional graduate coursework: Machine Learning and Design and Analysis of Algorithms (SFU Computing Science); Computational Economics (UBC)

M.Sc. in Economics, Sharif University of Technology, Tehran 2015 – 2018

B.Sc. in Industrial Engineering, Bu-Ali Sina University, Hamedan 2011 – 2015

FIELDS

Labour Economics, Immigration, Political Economy, Applied Econometrics

JOB MARKET PAPER

Immigrants' Pathways to Success: Study Permit vs Permanent Residency

Using the Longitudinal Immigration Database linked with annual tax files, I compare the long-run economic trajectories of immigrants who first arrived in Canada on study permits and later obtained permanent residency with those of immigrants admitted directly as permanent residents. Former international students earn less than direct permanent residents during the first eight years after admission, but their income trajectories surpass those of direct permanent residents in subsequent years.

WORKING PAPERS

- **Closing the Gender Gap? The Employment Effects of 3G Internet in Iran**
- **Sanctions, Dissent, and the Political Equilibrium** (with Samuel Bazzi and Pierre Mouganie)

POLICY RESEARCH

- **Inheritances and Labour Supply in Canada**, Statistics Canada internship project (2024–2025)

2021 Canadian Economics Association Annual Meeting

RESEARCH EXPERIENCE

Social Statistics and Economics Intern, Statistics Canada, Vancouver Nov 2024 – Mar 2025

- Designed and carried out a study of inheritance receipt and labour supply, linking the Survey of Financial Security to annual tax records; presented results to management and at the Statistics Canada Research Forum

Deemed Employee, Statistics Canada, via the CRDCN 2023 – present

- Confidential administrative microdata, including the Longitudinal Immigration Database, Census, PSIS, and tax records

Research Assistant, Department of Economics, Simon Fraser University 2021 – 2024

- Prepared the Panel Study of Income Dynamics and its confidential supplements for analysis

Data Analyst and Policy Consultant, Saman Toos Policy Co., Tehran 2018 – 2019

- Analyzed administrative and survey data for policy studies; designed a survey of 700 stock market traders and experts on herding behaviour

TEACHING EXPERIENCE

Sessional Lecturer, Simon Fraser University Spring 2026

- SDA 100: Social Data Analysis – Data Visualization (designed course materials; average evaluation 4.3/5)

Teaching Assistant, Simon Fraser University 2021 – present

- Economics: ECON 102, 103, 105, 113, 201, 302, 331, 333 (×2), 334, 383
- Beedie School of Business: BUS 336 (Spring 2026)

Teaching Assistant, Sharif University of Technology 2015 – 2018

- Econometrics I (×2), Macroeconomics, Economy of Iran (×3), Principles of Economics (×2)

Teaching Assistant, Bu-Ali Sina University 2013 – 2015

- Probability Theory, Statistics, Statistical Quality Control, Operations Research I
